

A few questions for the planning meeting:

1. Since Meadow Crossing Road is already at its limit of traffic, how will construction traffic be directed? Road damage from heavy equipment (already present at the bottom this week with the big digger there at the corner of Meadow Crossing and CTY Road #8).
2. Who is paying for the new road?
3. Any provision for a bike path with new road construction? Would be nice to add to the new outlet road since tough to add to Meadow Crossing and lots of bikers use Cty Road #8 with its nice shoulder (thank you).
4. I see no building plans for the north side of Meadow Crossing –the wide open space with the beautiful signature lone oak. Make sure that Oak is protected.
5. Any set aside open park space? Do not see that in the plans.

We appreciate the township so much and all your efforts. It's a great place to live. The snowplowing was superb this past winter – please pass that along to the crew.
