I recently heard of a request to potentially add a sidewalk along Meadow Crossing. I don't know the details of the project but my we would certainly be in favor of it. We have been living at our current house for 4 years and I have witnessed a number of close calls involving myself as well as others (biking/running) along the road. With all of the construction that will be happening in the area in the near future, it would be a perfect time to be proactive by adding a sidewalk and avoid a potential tragedy from happening.

Thank you.
