

*Dear Township Cooperative Planning Association,*

*I am a long-standing resident of Mayowood living on Transit Road. I want to express my serious concern about public safety for those who are pedestrians, runners, and bicycle riders along Meadow Crossing Road. Due to increasing road traffic, there is real risk of a motor vehicle collision and injury to those using Meadow Road. This risk increases at certain times of day- early morning for those traveling to work and later afternoon with return to home from work accentuated by transient blindness from the western setting sun.*

*I would urge you to strongly consider a separate path for pedestrians, runners, and bicyclers along Meadow Crossing Road that extends to Bamber Valley Road. I think that this is essential for public safety.*

*Respectfully yours,*

*Luis Savastano and Romina Rodriguez*
